

*This document is the March 2025 Ohio State Jural Assembly customization of the original documentation provided online at <https://forums.national-assembly.net/viewtopic.php?f=9&t=3> by the Michigan General Jural Assembly to assist with embracing and knowing the concepts and principals necessary to bring an assembly into today's effort to redress of grievances and abuse by government offices and the agents that presently occupy those offices.*

# **TEN STEPS TO AN ASSEMBLY**

**First Step:** Gather as many people together as you can get to meet with you and start discussing what the community concerns are. Ask two or more people to take notes of the discussion and guide the discussion into the formation of an assembly. Do not be concerned at this point whether or not it will be a county or a state assembly. The purpose at this point is to get the people introduced to the concept of an assembly to address grievances that are prevalent and common to all that are present. When the concept of an assembly is being accepted as a method of bringing the communities grievances to the government offices the discussion should then move into formalizing the assembly using the "Bill of Rights" Article one as the peoples authority and power to do so. Be conscientious of the time spent so as to not over stay the meeting and lose people, set a period of time that is agreed to by the group and plan the time and place for the next meeting having this all recorded in the notes by the note keepers. This meeting and the notes will become the minutes and the record of the first meeting of the assembly.

OSJA RESPONSE: Kindly see <https://ohio.juralassembly.org/establishment/>

**Second Step:** This should be the second meeting again with note takers and this discussion will be guided into the formalizing of how the group of people will desire the assembly to be operated and what leaders or officers the people desire to establish. Three offices (officers) required to the development of the assembly to function with a minimum of breakdown of the meetings into chaos and subsequent demise of the assembly:

First, Moderator, to keep order and decorum with the meetings progress;

Second, Recording Secretary (or "Scribe") to keep minutes and gather the notes from the note takers and to maintain the record of the assembly;

Third, Bailiff (or "Sargent-at-Arms") to assist the moderator in keeping order and to break up any ruckus that may break out because of the differences in ideology about any particular issue.

There are other offices that an assembly will desire to have in place to handle things that are on the floor of the assembly for discussion and voted into existence such as Treasure, Chaplin, Historian, and other offices and positions that the assembly deems necessary to function.

OSJA RESPONSE: Kindly see <https://ohio.juralassembly.org/establishment/>

**Third Step:** In researching the original concept of coming together as a grand jury, The Michigan General Jural Assembly determined that the Magna Carta of 1215 in chapter 61 the numbers for this body was stated to be "the election of twenty five barons from the realm" to administer stability and security.

The (Michigan Grand Jural) assembly selected the number of twenty seven so there were two alternates to participate in the deliberations of a grand jury and this number became the number of assembly members to establish the state level assembly. The Michigan Grand Jural Assembly then decided on the number to establish the county committee of safety as thirteen, which constitutes a petit grand jury. We refer this establishment of the state and county assemblies as settling the state and county under de jure jurisdiction.

OSJA RESPONSE: Kindly see <https://ohio.juralassembly.org/establishment/>

#### **Fourth Step: Mission Statement**

By now or at least the third meeting the group or assembly will want to discuss how the function and operation of the assembly will be and also become very solid on the concept that whatever the assembly decides to do the safety and wellbeing of the assembly members and the community is the highest priority. The purpose is to move the elected people, in government offices, in the direction of protecting the people's rights and to cease abusing their office for self-aggrandizement and self benefit at the expense of the people. This is done by making the people of the state and county aware of the existence of the assembly and that they can become members by whatever process those in the present assembly agree on by a vote that is seen to be right for the assembly whether that is by majority, quorum or how every. The will and desire of the people are the reason the assembly exists and that all come to a consensus and agree is the most important factor to be observed. It is also important that all who gather are to be heard and their input be considered creating and exercising the concept that all have a voice and all in concert can speak as one voice to an aberrant agent in a government office (Use Robert's Rules of Order for Parliamentary Procedure.)

OSJA RESPONSE: Kindly see <https://ohio.juralassembly.org/establishment/> as well as meeting agendas, minutes and recordings, and Grand Jury archive of activities (<https://ohio.juralassembly.org/>)

#### **Fifth Step: Serve Lawful Public Notice of Existence**

The assembly must now publish notices (with enough potential viewership to constitute lawful notice to the public – typically 20% of the currently agreed upon population of your State or County, whichever you are settling) in the "legal notices" section of the major news publisher for the state level and in the local county news publisher again in the legal notices section for the county, (or in Town Crier Method, via weekly public proclamation on the appropriate County/State Courthouse steps by membership for 3 consecutive weeks in the case of Counties/4 consecutive weeks in the case of State and online on such sufficiently popular local/state platforms to reach the required number of views; online Notices, un rebutted after 30 days become truth in fact and law).

Traditional ink-and-paper newspaper publishers are being advised by their attorneys to not publish these notices but persistence will prevail if you challenge them "nicely" and make your case using the very same 1st article in the Bill of Rights that they themselves use. There are caveats to this publication which you must insist on which are when they do publish it it cannot have a box around it as legally they have conquered your assembly and can dictate and claim jurisdiction. A way to see how you desire it to be published is to get a major and local paper to see how the attorneys have their notices published and insist for the same courtesy.

All notices must be published three weeks in a row with the paper being purchased and given to the Recording Secretary for the record, or in the case of online publication, printed with date/timestamp and held in permanent archives.

The final week of notice publication (hard copy or online) is when the assembly reads the article (Settlement Covenant language) into the minutes of the county board of supervisor's /board of commissioner's /board of trustees / whatever county /town hall / business meeting takes place in your county.

State public notice is different only in the fact that it is to be published Four weeks in a row and then the time/date stamped articles and a notice is mailed by Registered Mail to the state governor and the state attorney general. Any rebuttals must immediately be addressed by affidavit, in writing, publicly posted for 30 days.

[OSJA RESPONSE: \(Hyperlink to Ohio 2016 proofs / 2020 proofs\)](#)

**Sixth Step:** By now the present assembly should be interested in and determined to address the concerns that have been identified and if sufficient numbers exist there can be specific topics subjects or ideas that can have three or five people volunteer for subcommittee participation to research and bring the finding and conclusions of evidence to the assembly for action vote by the general assembly. A notice or affidavit to be delivered to the government office that has been offensive and abusive to the people should be developed, be sure to include their statute rule ordinance or regulation which is harmful, or that the agent/agency is out of compliance with and an equitable remedy which the general assembly agrees upon.

*The main business of the assembly is to educate the members so they can educate the community on rights and responsibilities under common law that constitute the complex concept of "self-governance."* This is how We THE People effect change by peacefully petitioning to redress grievances, holding our elected, appointed or hired government agents responsible and accountable for enacting the 'expressed will of The People' in the roles which they volunteered for to represent us.

[OSJA RESPONSE: Kindly see meeting agendas, minutes and recordings, as well as Grand Jury archive of activities \(https://ohio.juralassembly.org/\)](https://ohio.juralassembly.org/)

### **Seventh Step:**

Preface: The records of the assemblies business are critical to the assembly to rebut and challenge all efforts to minimize do away with ignore the communication from the assembly to our public representatives. The education of the assembly members and the community must always demonstrate the actions in a peaceful lawful manner, aiming to eliminate controversy and restore honor to all.

We THE People require our public officials to perform the duties and obligations of their voluntary offices with integrity and impartiality. In all cases, we utilize clearly written, concise statements of objection, founded on their job descriptions, the requirements of state/local codes, statutes and The Constitution, give time for reasonable remedy and always provide our proposed equitable remedy offer. Standardized protocols that the assembly develops in these efforts are crucial and the chain of evidence that helps to support the mission of the assembly. Maintaining a retrievable database of the steps the assembly takes in achieving their unique protocols are critical in substantiating not only the credibility of the assembly but also in proving the

continuity of existence and compliance with Bylaws “Rules and Procedures” / Grand Jury guidelines for assured cooperative good standing between States assemblies.

OSJA RESPONSE: Kindly see meeting agendas, minutes and recordings, as well as Grand Jury archive of activities (<https://ohio.juralassembly.org/>)

### **Eighth Step:**

Two documents are required for credibility and assurance of integrity of the general assembly. First, the Functions and Operations of the Assembly (for Ohio, this is called Bylaws “Rules and Procedures”) outlining the mission and guiding concepts principals and standards *of the business of the Assembly*. This document /manual /handbook will allow all assembly members and all who come to join or participate with the assembly to become aware and educated about how the assembly functions and operates.

The second is the Functions and Operations of the Grand Jury outlining the Grand Jury: determining whether an action is appropriate, that testimony and facts can be presented for deliberation. Once deliberations are finalized and a verdict describing recommended equitable remedy is reached, this verdict is confirmed by magistrate and enforced by the appropriate office of the Sheriff/clerk of courts in the county where the claimant has brought forward his cause

OSJA RESPONSE: Kindly see ‘Bylaws “Rules and Procedures” for the general Assembly and Grand Jury Functions and Operations (<https://ohio.juralassembly.org/assembly-documents/>)

\*It is further noted here that the Ohio State Jural Assembly has carefully included significant language in its membership requirements that constitutes an expected code of conduct for each member. Kindly see <https://ohio.juralassembly.org/membership/> in both the character expectations and required autographed documents sections.

### **Ninth Step**

Preface: The highest value of the assembly is the shared research and learning about the origin of the Republic and its present condition:

- The origin of the state and the rules that the legislature has published as being the way it is or not.
- The continual creep of the attorneys into our government offices and the corrupt politicians that have sold out their office for financial gain and re-election potential with favors is well known and observed. All the while they put in place enslaving legislation that is abusive and costly to the people and their nation.
- The legislative process has been usurped and utilized against the people and the assembly has the function of dissecting the verbiage of these legislative documents and demanding correction or repeal.
- This is not easy work and it is not a short method to accomplish the change we all desire. As articulated through these steps the learning and work of the assembly has a heavy burden of being educators and researchers to communicate their findings to the people.

By now the assembly should have its operations established and people are working in concert to establish a record of what the assembly is doing and what it proposes to do. *This will include the maintenance of the*

records of the meetings minutes, offices identified and filled to orchestrate the business of the meetings and communications with the government agents at whatever level chosen to address as the assembly will see where there are overlaps in the abuse of the government offices. Without a record of activity, the assembly is little more than a group people meeting and discussing a wish list without any evidence of any actions taken. The minutes of the meeting, whether by physical meeting or phone meeting is the record of the identifying an infraction of the government, the proposed correction of that infraction and the communication of the identity and proposed correction to that office.

This is the purpose of the assembly and the type of dialogue communicated to government that informs them their behavior is under scrutiny by the people.

OSJA RESPONSE: Kindly see meeting agendas, minutes and recordings, as well as Grand Jury archive of activities (<https://ohio.juralassembly.org/>)

### **Tenth Step:**

Preface: We believe that this action will bring awareness to the people that these abuses cannot be addressed by any other means rather than the long time desire to sue them in courts that are manipulated by attorneys to extort the people and obligate their labor for damages that no man or woman has caused. The long time wish of people to walk in and arrest judges and sheriffs and police for their abusive acts are not happening nor will it happen until the people make it their "right" to do so. Most states will find many blocks to their efforts to hold their elected and hired government agents accountable. As the assembly researches the method the government is supposed to work and how it actually does will be an experience that will rile emotions and instill anger which needs to be directed at challenging the legislated abuses and agent protective immunities to effect change.

Every assembly should meet at regular times, whether physically or phone and discuss the findings of fact and their desired conclusions and demand the correction to the problem identified in written form to compile documented evidence. Each assembly needs to establish a state assembly call that can be used to discuss business of the state assembly and to also participate in the National Assembly call to discuss the national governments abuse and to also partake in developing communication of these abuses to the national government as well as the state's congressional representatives from a unity of states position.

OSJA RESPONSE: (<https://ohio.juralassembly.org/>)

With these ten steps it is the hope of the author that it will inspire the people to learn how the government is to act in accordance with the people's desire and will and that the government's power to intimidate extort incarcerate people without due process is brought to an end.©

Presented to MGJA by Rcg

"First, let no one rule your mind or body. Take special care that your thoughts remain unfettered... . Give men your ear, but not your heart. Show respect for those in power, but don't follow them blindly. Judge with logic and reason, but comment not. Consider none your superior whatever their rank or station in life. Treat all fairly, or they will seek revenge. Be careful with your money. Hold fast to your beliefs and others will listen."  
"Wise? No, I simply learned to think."
