Jessica added that the Website is updated and with a countdown on the

Affidavit we have less than 10 days to send in signatures. She also added we have to create a timeline for the signatures

Dave suggested extending the deadline one week and contact the Moderators and have them collect signatures at their next meeting.

Robin stated that the deadline has already passed. It's already 2 weeks past the first 30 day notice.

Robin ~~made~~ ^{suggested to} a motion to move forward and have all signatures in by Friday

Jessica motioned Friday as the deadline for wet signatures

Ross asked for ~~any other suggestions~~ ^{motion to close} Old Business

Jessica spoke up and the Butler County Sheriff's bond has expired, need someone to follow through and update if it's been renewed. Robin stepped up.

Jessica also brought up the Dewine Petition and so far we only have 366 signatures, we need 200,000. Robin + Dave spoke up that they have more signatures.

A question was brought up as to what the petition was for.

Dave spoke up and explained it

Ross addressed the language of the Covenant

- Articles are not to be edited by Counties
- Preamble may be edited

Robin stated Michigan has 10-12 Resources to create the documents. Founders are adamant that we do not change it. It's worded for our protection. Dave tweaked it for Ohio. Dave stated the Preamble can be adopted to the County, our objective is to settle. You can go back later to file an addendum if need be to revise the Preamble. Becoming a ^{is local} person. Wong asked why people are having an issue with it?

Gary stated the document was already voted on and there's no need to go back and change any documents we need to move forward.

Jessica reminded the paperwork was already vetted.

Next point: Ross brought up that a member had wanted to resign then they called and changed their mind. Should we allow a cooling off period before being put back into rooms.

the Assembly
Robin stated that ~~it's open~~ is open to everyone
Gary stated it's open 24/7 anyone ~~can~~ decides
they want to leave they can and anyone want
to come back they can when they're ready.

Another point by Ross: Gizzy has resigned
from Summit Co.

Gary brought up: is anyone keeping track
of ~~Peoples~~ people missing the calls? Where's
the attendance? Ross added that he is putting
together a roster.

Robin asked - is everyone papered supposed
to be on the calls or designated members?

Gary stated we need participation from the
counties and it goes back to vetting.

Doug suggested having representatives from
each county be on the weekly call.

Dave stated that when he sets up these
counties that he does tell them they need 2
representatives on the calls and that should
suffice.

Ross stated that he's working on a
spreadsheet so will know who's
papered in what counties and that will
help to get one 2 reps per call.

Robin reminded us that we have a position available as a Liaison, so the Moderators can Report to the Liaison and they can ~~then~~ Report to the State on the business meeting what's going on in the Counties.

Jessica gave update on Website Committee
We are in need to do an upgrade on website and are in need of donations to pay for it.

Robin added that she recently paid for WIX our ~~domain web~~ ^{domain web} host engine and would like donations to ~~offset the~~ reimburse her.

Ross tabled the discussion on upgrade of the website

Jessica suggested a subcommittee to reach out to people running for public office that are in counties that are not yet settled to get them to sign a form like we did with Blystone, even the settled Counties.

Robin added that she tweaked the Candidate Promise Letter that Blystone + Joans signed and turned it into an Affidavit they have to sign ^{and} notarize it email it to anyone running for public office that's going to be on ballot in 2022 as a

public information Request, give them 10 days ^{did we} to Return it. We Can post it on social media who did not
Return so it's a good indicator who's for the people
it will also help the Precinct Committee Men
when ~~we~~ ^{they} start going door to door in our precinct,
we can tell them who signed it and are for the
people.

Gary suggested once there is a list of all papered
members to send out emails to everyone
Reminding them of Tuesday night zoom call.
