to steve davis : a man; who sometimes acts as commissioner and board member of dac on fairfield county :

i: keith alan mauger: a man; do claim harm resulting from “vaccine” shedding, also known as horizontal transmission;

i, do claim that the harm began upon the distribution of the covid bioweapons, masquerading as “vaccines for the prevention of covid 19,” and continues to this day;

i, do affirm that you, through participation in the county district advisory committee, are responsible for such distribution and availability;

losses due to shedding include:

anxiety, stress, health issues such as sinus pressure, congestion, and hemorrhage; malaise, brain fog and feeling dazed, mood swings, sore throat, aching chest pain; and an increase in static electricity from my body; all shortly after known exposure; these have happened repeatedly;

grief over loss of connection to soulful companions;

concern of great potential for disease due to dna damage;

existential disquietude over potential loss of identity due to dna degradation;

i, do affirm that i, did not and do not consent to the entry of

nanotechnology and other “vaccine” toxins into my cells or body;

i, do affirm that such entry does violate my religious values and constitutional rights;

i, bring forth the current knowledge that all serums labeled “vaccine” have great potential to cause great harm, including damage to the bioelectric energy systems of all living beings and to the human genome;

i, do require that you cease and desist all distribution and availability of mrna nanotechnology “vaccines,” and remove all alleged “information” and advertizing on your website; submit sealed vials to qualified experts for forensic investigation; and order the cessation of distribution from all hospitals, doctors offices, pharmacies, and clinics on fairfield county;

i, do seek remedy for the above-mentioned harms, in the amount of two-thousand and seven-hundred troy pounds of silver plus one-hundred troy ounces of silver per day that the availability of these injectables continues;
