

18th february, 2025

greetings to Alex Lape: a man; who sometimes acts as
fairfield county sheriff:

currently, a twelve-member board of review under the
ohio jural assembly is examining the well-noticed
claim of keith mauger: a man; against steve davis, tina
childers, r. joseph ebel, crystal warner, and don
mcdaniel;

the mission of osja is to educate in the peaceful
elimination of controversies and the restoration of
honor to mankind;

we seek only reparation and justice, and neither
revenge nor punishment for those who trespass
against us;

the board is intentionally the equivalent of a petit
jury, assembled under common law; its purpose is to
demonstrate what happens in a mock court when the
following conditions are met:

the jury wholly consists of man and woman who have

not received “vaccines” within the past four years;

the jury is given access to recent studies of the undeclared, toxic nanotechnology which is in the injection serums;

the jury is invited to offer their own stories of harm from vaccine shedding, also known as horizontal transmission;

the jury is asked to hear statements from those who are aware of symptoms indicating harm from shedding;

the jury is shown pharmaceutical references to the very contagious nature of the contents of the injections;

the jury is educated in common law, particularly as regards making a three-notice claim;

the result of all of the above:

the jury becomes aware that available evidence supporting a claim such as that of keith mauger is infinite;

the twelve are all eager to take responsibility for

verifying the claim, as man and woman acting under law;

the core purpose of this correspondence is to ask you: will you aid us in our quest to find a path to enforce this verification? and thus shall you become a small part of the shield against this egregious threat to the very lifeblood of humanity;

the invitation to meet with six of us on tuesday, 25th february, at 10:30 am, at 961 kinzler ave, lancaster, meeting upstairs, entrance on the side of meadowview drive, remains unacknowledged;

alternately, is there a non-vaccinated fairfield county deputy who might be willing to accept statements of harm and review the highlights of our evidence?

we do earnestly await a reply.
