

**notice**

greetings to bruce t vanderhoff: a man or a homoborg  
genesis; who sometimes acts as chair of ohio public health  
advisory board:

sending thanks to the man or woman who did acknowledge  
receipt of the previous correspondences;

i: a woman: beverly jean welbourne; and i: a man: keith alan  
mauger: a man: do say:

the ridiculous act of returning said correspondences is far  
from the action of an honorable man who takes responsibility  
when he has caused harm;

rather, it is the action of an institution, hell-bent for self  
preservation, crumbling under the weight of utter refusal to  
engage with the principles upon any legitimate medical  
process must rest; that is, the foundation of the ohio state  
health board cracks from lack of informed consent, both for  
those who were injected and those of us who struggle with  
horizontal transmission; its roof collapses from lack of  
honesty and integrity; meanwhile, you, bruce: a man; try to  
hide in the rubble behind your title;

it is correct that no legal notice has been or is given to the  
oshb corporate office; none is intended;

rather, lawful notice is presented to you: bruce t vanderhoff:

the man; requiring rebuttal or action leading to remedy;  
regarding the trespasses of r joseph ebel: a man or a  
homoborg genesis, who sometimes acts as fairfield county  
health commissioner; don mcdaniel: a man or a homoborg  
genesis, who sometimes acts as mayor of lancaster; and steve  
davis: a man or a homoborg genesis, who sometimes acts as  
commissioner of fairfield county;

we, along with others, do attest that you continue to cause  
harm well after you have been informed; your silence speaks  
loudly of a position which is not defensible;

if you wish to rebut, please do so to:

beverly jean welbourne
