garfield heights ohio 44125

greetings to alexander f grgat: a man; who sometimes acts clerk of courts:

i: a woman; wish peaceful entry into the court house at garfield heights municipal court, on the morning of friday, 5 december, to observe a civil hearing;

i, am familiar with the usual security measures involving electromagnetic scanning with metal detectors, both walk-through and wands;

i, do wish to inform you that all such irradiation under the guise of “scanning,” “security,” and the like, causes harm to i, as does the touch or close proximity of persons who are “vaccinated” in the past six years; this second cause of harm is due to horizontal transmission, known in the vernacular as shedding;

i, do offer to accept a pat-down by a non-vaccinated woman or man;

i, ask that you confirm that the right to enter the court, presumably unharmed, supercedes perceived necessity for the standard security measures;

i, would prefer that this confirmation be written and with a wet signature; however, with the date on which i, wish to enter only five days hence, i, accept phone response: 513 489 9777; landline, do not text;

if i, should receive no communication regarding the above requirements, i, shall assume acquiescence on your part, and shall plan to enter the court as described.

thank you,

beverly jean welbourne
