greetings to alex grigat: a man, who sometimes acts as
clerk of courts:

thank you for the voice message yesterday;
i: a woman, do write again to clarify some ideas:

i, do not see a doctor for any medical condition;
i, do not have physical symptoms - until and unless i,
am subjected to electronic devices or vaccine shedding;
such contacts do impress me as resembling assault;

as for the shedding phenomenon: you have not addressed
this issue at all, shall i, take this complete ignoring as
indication that you are vaccinated, and therefore are
shedding? if so, i, do understand how you might not feel
qualified to address it;

the overall effect of your policy is that i, a woman, am
denied access to the pre-trial hearing of Ross Marley, which
is allegedly held at public court; i, do not have access to zoom;

and i, have travelled for most of a day, to be
present here;
the reason for the denial appears to be:
i, do not consent to electronic assault;

i, do ask that you reconsider.
