

statement

russell mock

126 south lebanon road

loveland ohio 45140

2/24/2026

greetings to the man: russell mock, who acts as magistrate of loveland mayor's court:

i, keith allen mauger: a living man; do write you today in support of the woman, beverly j welbourne;

i do affirm the claim of harm done to beverly as true fact; she and many a man and woman are harmed by shedding from the vaccinated; i, also am harmed from shedding and do recognize the symptoms as i have experienced many of the same; i as well recognize harm by radiation from metal detectors, wifi, emf and all types of devices emitting radiation and have many times been harmed by such;

i, keith allen mauger, have indeed witnessed beverly with recent illness resulting from proximity to and interaction with the man, ben marcum, acting as policy enforcer in a recent forced stop by him of beverly on the evening of 2/18/2026; i, will affirm this in a lawful court of record;

i, do ask of you to do research on this subject as shedding and radiation is doing much harm to mankind and needs to be recognized and addressed;

may you all come to honor and recognize this claim;

best regards,

/s/ _____

keith allen mauger
