re: 2026 cv 0048

22 may 2026

greetings to anna downing: a woman; who sometimes acts as deputy clerk:

thank you for filing three summons on behalf of i: a man; on 30 january 2026;

i: keith allen mauger: a man; do here inform you of a few important errors or omissions in your actions:

- i, do not accept the title “plaintiff”; rather, i, wish to be present at court as a man who presses a claim;
- i, file no complaint; therefore, the heading: “summons on complaint” is inaccurate and misleading; this error has led to further egregious errors;
- no document indicating that summons have been issued, nor any indication of docketing have been

provided to i; the first item which i, did receive after filing is dated may 8 2026; this is approximately four months post filing;

please read the original document which i, did submit, and refrain from implying changes to said document into any document which you create; or, attach a wet signature statement detailing any such changes; specifically, please correct the above clerical errors: make note that i, a man, do submit these claims, or note that you have changed the standing of the claim, using legalese or color of law; and re-issue the summons, this time providing docketing information directly to the blue valley road address;

or: please assume personal responsibility for the outstanding debt;

in the absence of either sincere and immediate action to correct the errors, or lawful rebuttal, i, shall assume acquiescence.

thank you, /s/_____
